Last updated: March 15, 2019

1. Development License

1.1. Development License. Conditioned upon compliance with the terms and conditions of this Agreement, IFTech hereby grants you a limited, non-exclusive, personal, revocable, non-sublicensable, royalty-free, and non-transferable license to: (a) use a reasonable number of copies of the ARAIG SDK on computers owned or controlled by you for the purpose of developing and testing applications that are intended for use solely in connection with an IFTech Device, and IFTech Software (“**Application**”); and (b) modify and incorporate into your Application any sample code provided in the ARAIG SDK.

1.1.1. This license includes the non-exclusive license and right to use (i) the ARAIG SDK to make applications, content, games, demos, movies, etc, (collectively and generally referred to as “Developer Content”) that run on hardware, mobile hardware and software products (“Approved ARAIG Products”) and which may incorporate the ARAIG SDK in whole or in part in binary or object code; and (ii) to use the ARAIG SDK to create derivative works of the ARAIG SDK itself (“ARAIG SDK Derivatives” as further defined below), whether in source, binary, or object form, in whole or in part, including third party software unless otherwise noted.

1.1.2. ARAIG SDK Derivatives are further defined as source, binary or object code derived exclusively from the ARAIG SDK by you; provided, however, that ARAIG SDK Derivatives do not include the Developer Content (engines, utilities, applications, content, games or demos) which may be developed using the ARAIG SDK. By way of example a mobile application or game or demo that is developed using the ARAIG SDK would not be a ARAIG SDK Derivative, nor would a utility or tool set in a pre-existing game engine that is adapted to work with the ARAIG SDK be a ARAIG SDK Derivative. By way of example, but not limitation, a ARAIG SDK Derivative is or would be: either (i) an adaptation of a utility or piece of code from the ARAIG SDK to improve efficiency; or (ii) an addition of code or improvement to the ARAIG SDK that adds functionality.

1.1.3. For the sake of clarification when you use the ARAIG SDK (including ARAIG SDK Derivatives) in or with Developer Content, you retain all rights to your Developer Content, and you have no obligations to share or license Developer Content (including your source and object code) with IFTech or any third parties; provided, however, IFTech retains all rights to the ARAIG SDK and the ARAIG SDK Derivatives that may be incorporated into your Developer Content.

1.1.3. You, the recipient and user of the ARAIG SDK, hereby agree and accept that IFTech shall own all right, title and interest to the intellectual property rights, including, but not limited to copyright, trademark and patent rights, to any ARAIG SDK Derivatives that you may create, and you hereby assign any and all such rights to such ARAIG SDK Derivatives to IFTech, subject to the following.

1.1.4. We hereby grant to you the fully paid up, no-charge, royalty-free, world-wide, in perpetuity, non-exclusive right and license to use these ARAIG SDK Derivatives solely in conjunction with the ARAIG SDK (or any components of the ARAIG SDK) and/or Developer Content on IFTech ARAIG Products as set forth herein.

1.1.5. Furthermore, for the sake of clarification, IFTech and its assignees and licensees shall be free to use such ARAIG SDK Derivatives without any approval from you and without compensation or attribution to you.

1.1.6. You also agree upon IFTech's request to provide the source and binary code of any ARAIG SDK Derivatives to IFTech. FAILURE TO COMPLY WITH THIS REQUEST IS THE BASIS FOR AUTOMATIC TERMINATION OF THIS LICENSE BY IFTECH.

1.2. Restrictions. The license granted to you in Section 1, 1.1, and 1.1.1-1.1.6. is subject to the following restrictions, as well as others listed in this Agreement:

1.2.1. Except as expressly permitted in Section 1 you may not publish, distribute or copy the ARAIG SDK, and (b) you may not modify or create derivative works of the ARAIG SDK.

1.2.2. You may use the ARAIG SDK solely in connection with an IFTech Device and/or IFTech Software.

1.2.3. You may not, and may not enable others to, reverse engineer, decompile, disassemble or otherwise attempt to reconstruct, identify or discover any source code, underlying ideas, techniques, or algorithms in the IFTech Software, the IFTech Device or any software that forms part of the ARAIG SDK, nor attempt to circumvent any related security measures (except as and only to the extent any foregoing restriction is prohibited by applicable law or permitted by applicable law notwithstanding the foregoing restriction, or to the extent as may be permitted by licensing terms governing use of any open source software components or sample code included within the ARAIG SDK).

1.2.4. You may not remove, obscure, or alter any proprietary rights or confidentiality notices within the ARAIG SDK or any software, documentation or other materials in it or supplied with it.

1.2.5. You may not create Applications or other software that prevent or degrade the interaction of Applications developed by others with the IFTech Software.

1.3. Updates. The terms of this Agreement will apply to any Updates that IFTech makes available to you. You agree that Updates may require you to change or update your Application, and may affect your ability to use, access or interact with the IFTech Software, the IFTech website, the IFTech online store, and/or the ARAIG SDK.

1.4. Trademarks. You may indicate that your Application is "ARAIG Operational" or "ARAIG Ready". However, unless provided in an agreement between you and IFTech, you may not otherwise use "IFTech", "ARAIG", "ARAIG As Real As It Gets" or any other trademark of IFTech in connection with your Application or company, or in any URL, product, service, name field or logos created by you without express permission from IFTech.

2. Distribution License

2.1. Distribution License. Conditioned upon compliance with the terms and conditions of this Agreement, IFTech hereby grants you a limited, non-exclusive, personal, revocable, royalty-free, non-transferable license under IFTech's applicable intellectual property rights to the extent necessary to: (a) copy and distribute (or have copied and distributed) the IFTech Redistributables, solely as compiled with, incorporated into, or packaged with, your Application; and (b) to make (but not have made), use, sell, offer for sale and import your Application.

2.2. Restrictions. The license granted to you in Section 2.1 is subject to the following restrictions, as well as others listed in this Agreement:

- 2.2.1. Your Application may not be for a High Risk Use (as defined in Section 4.1).
- 2.2.2. You may not, directly or indirectly, publish, post or otherwise make available the IFTech Redistributables other than as compiled with, incorporated into, or packaged with, your Application.
- 2.2.3. You may not, and may not enable others to, distribute the Non-Redistributable Materials.
- 2.2.4. The “ARAIG License.txt” must be included with all other IFTech Redistributables.

3. Open Source Materials, Other Licenses

- 3.1. The ARAIG SDK may include software or other materials that are provided under a separate license agreement, and that separate license will govern the use of such software or other materials in the event of a conflict with this Agreement. Any such separate license agreement may be indicated in the license, notice, or readme files distributed with the applicable software or other materials or in related documentation.

4. No High Risk Use; Acknowledgment and Waiver

- 4.1. Notwithstanding anything in this Agreement, you are not licensed to, and you agree not to, use, copy, sell, offer for sale, or distribute the ARAIG SDK, IFTech Devices, IFTech Software or IFTech Redistributables (whether compiled with, incorporated into, or packaged with your Application or otherwise), for or in connection with uses where failure or fault of the IFTech Device, IFTech Software, IFTech Redistributables or your Application could knowingly lead to death or serious bodily injury of any person, or to severe physical or environmental damage (“**High Risk Use**”). ANY SUCH USE IS STRICTLY PROHIBITED.
- 4.2. You acknowledge the ARAIG SDK may allow you to develop Applications that involve virtual and/or real world activities. If such activities enable the control of motorized or mechanical equipment, or any other systems, machines or devices, and you elect to use the ARAIG SDK in such a way, you must take steps to design and test your Applications to ensure that your Applications do not knowingly present risks of personal injury or death, property damage, or other losses. The IFTech Device, the IFTech Software, the IFTech Redistributables and other software in the ARAIG SDK may not always function as intended. You must design your Applications so that any foreseeable failure of an IFTech Device, the IFTech Software, an IFTech Redistributable and/or such other software does not cause personal injury or death, property damage, or other losses. If you choose to use the ARAIG SDK, (i) you assume all risk that use of the IFTech Device, the IFTech Software, the IFTech Redistributables and/or such other software by you or by any others causes any harm or loss, including to the End Users of your Applications or to third parties, (ii) you hereby waive, on behalf of yourself and your Authorized Users, all claims against IFTech and its affiliates related to such use, harm or loss (including, but not limited to, any claim that a IFTech Device, the IFTech Software, a IFTech Redistributable or such other software is defective), and (iii) you agree to hold IFTech and its affiliates harmless from such claims.

5. Confidentiality and Privacy

- 5.1. **Alpha and Beta Software etc. Obligations.** You acknowledge and agree that IFTech may share alpha or beta software or hardware with you that it identifies as non-public. If so, you agree not to disclose such software or hardware to others without the prior written consent of IFTech until the time, if any, it is made public by IFTech, and to use such software or hardware only for the purposes expressly permitted by this Agreement.
- 5.2. **IFTech Use of Assets.** Subject to the terms and conditions of this Agreement, you grant to IFTech and its affiliates a non-exclusive, revocable, non-transferable, worldwide and royalty-free limited license to use, reproduce, display, perform, publish and distribute screenshots, elements, assets, photographic, graphic or video reproductions or fragments of your Application in any medium or media, solely for purposes of promotion of your Application or of IFTech and its technology and business. This license will terminate if We terminate this Agreement, or, if you terminate it, if you inform Us you have terminated it, except that in both

cases the license will continue after termination with respect to any materials We created and first distributed prior to our termination or your notice of termination to Us.

5.3. Your Information. IFTech may use the information collected to facilitate the provision of Updates and other services to you, to verify compliance with, and enforce, the terms of this Agreement, to improve the ARAIG SDK and IFTech's products, and for any other purposes set out in IFTech's privacy policy (these uses, collectively, are "**Permitted Uses**"). By submitting information about you and/or your Authorized Users to IFTech through your access and use of the ARAIG SDK, you consent to IFTech's collection and use of the information for the Permitted Uses and represent that you have obtained all consents and permits necessary under applicable law to disclose your Authorized Users' information to IFTech for the Permitted Uses. You further agree that IFTech may provide any information collected under this Section 5.3, including your or your Authorized Users' user name, IP address or other identifying information to law enforcement authorities or as required by applicable law or regulation.
